

Shift Coverage & Liability

AI agents to streamline liability assessment

Shift Coverage & Liability uses agentic AI to review coverage, dissect claims details and prioritise next best actions to produce accurate liability estimates with defensible logic to drive 1.5% indemnity savings.

AI analysis

Handler guidance

Liability summary

Agentic AI liability

Improve payment accuracy

Assess incident details, statements, police reports and local laws quickly to accurately assess and update liability

Lower expenses

Standardise liability assessments and guide next best actions to decrease the need for repeated reviews and adjustments

Enhance negotiations

Generate clear, fully defensible liability summary assessment automatically to support insurer negotiations

Improve policyholder experience

Provide clear, concise transparency to support customer interactions, expedite claims resolution and drive retention

A complete approach

Assess data sources

Review policy coverage and assess duties owed, duties breached

Analyse documents

Extract details from insured statements, police and witness reports

Prioritise next best actions

Assess accuracy of liability estimate and next steps to secure evidence

Update liability continuously

Refresh liability estimate upon receipt of new documents to improve accuracy

Top insurers choose Shift

Unmatched AI-ready data

Built on billions of insurance-trained, AI-ready data elements, Shift AI agents are built to deliver high quality outcomes that insurers trust

Deep insurance expertise

More than a decade of industry experience with insurer processes, systems, and data enables Shift AI and teams to anticipate and drive lasting transformation

Human + AI collaboration

Human-in-the-loop by design, Shift Agents work alongside experts, ensuring every action is transparent and auditable

Demonstrated impact

Trusted by the world's leading insurers to turn reactive processes into real-time results: lower losses, faster cycles, and superior customer experiences

Agentic AI drives liability accuracy with confidence

Explainable AI

Insurance-specific AI models with clear, transparent reasoning.

GenAI analysis

Free-form text analysis of facts buried in statements analysed and reconciled quickly with other evidence.

Document analysis

Analyse police reports, operator and witness statements, and vehicle photos.

Local negligence laws

Automatically assess and apply local negligence laws.

Next Best Actions

Prioritise next steps to improve completeness and confidence of estimate.

Refine liability estimate

Update liability automatically when additional evidence is received after FNOL.

Intelligent learning

Liability assessment informed by insurer feedback to drive model learning.

Liability Assessment Summary

Clear summary justifying liability estimate for use in negotiations.

Robust agents

Scalable coverage and liability determination to drive consistency and efficiency.

About Shift Technology

Shift delivers AI agents that transform insurers' most critical work. By combining deep industry expertise and unmatched data resources, Shift provides proven results that have earned the trust of hundreds of the world's leading insurers. Our insurance-grade AI is accurate, explainable, and secure—empowering human experts to move with unmatched speed, total confidence, and a renewed focus on the people they serve.
